

Trade up and save! Upgrade your milk meters

If your milk meters are getting old, you're probably missing out on some of the technological advances of the last few years. But is now the time to upgrade? DeLaval is making it easy with a price reduction when

you trade in your old meters and upgrade to the latest technology.

It means you can replace your meters, renew your warranty, and reduce your on-going maintenance costs.

This promotion applies to:

DeLaval Flow indicator FI7

- No moving parts, little maintenance
- Measures milk yield and flow
- Can be connected to 12 and 24 V
- Software calibration possible

DeLaval Milk meter MM27BC

- No moving parts, little maintenance
- ICAR approved accuracy
- Measures conductivity
- Detects blood in milk
- Detects kick offs, slips and blocks
- Software calibration possible

How it works

The following equipment can be traded in:

1. Competitive milk meters, indicators or sensors – any make or model!
2. Out of warranty models of FI7 or MM27
3. Older model DeLaval sensors, meters or indicators such as: MM15, MM25, FI5, HFC, FI2, Manuflow, MM6, Glass jars, Flomaster, etc.

- Make sure the promotional article numbers are ordered.
- Proof of scrapping is required.
